-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. Claims 1-10, 13-17, 19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 10, 13 and 19 contains the trademark/trade name KEVLAR. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe aramid fiber and, accordingly, the identification/description is indefinite.

In claim 14, last line, "said reinforcement panel" lacks antecedent basis in the claims. For the purpose of applying the prior art, it is assumed that either claim 12 or claim 13 was the intended dependency since claim 11 does not recite the reinforcement panel. However, correction is required.

In claim 1, last line, "said items" lacks antecedent basis in the claim.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3727

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1 and 11 are rejected under 35 U.S.C. 102(e) as being anticipated by Pavkov et al.

Pavkov et al discloses a container 56 including at least two transverse compartments each having a side to side width that is greater than the depth and disposed in a fore and aft relationship as claimed. With respect to claim 1, no distinction is seen between the claimed container and that shown in Pavkov as a result of the claimed intended use with an item that, upon placement in the container, would result in a transverse orientation of the item, i.e the container of Pavkov is considered capable being used to hold such an item.

4. Claims 1 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by any one of Geeves, Waters, Bartholomew, Nipp, Bott or Hughes. Each of Geeves, Waters, Bartholomew, Nipp, Bott and Hughes discloses a container including at least two transverse compartments each having a side to side width that is greater than the depth and disposed in a fore and aft relationship as claimed. With respect to claim 1, no distinction is seen between the claimed container and that shown in any one of Geeves, Waters, Bartholomew, Nipp, Bott or Hughes as a result of the claimed intended use with an item that, upon placement in the container, would result in a transverse orientation of the item, i.e the container in any one of Geeves, Waters, Bartholomew, Nipp, Bott or Hughes is considered capable being used to hold such an item.

***Allowable Subject Matter***

5. Claim 18 is allowed.

6. Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 2-10, 13-17, 19 and 20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

### ***Conclusion***
